Here’s how a student can retrieve their Moodle Login.

1. Click on the “Forgotten your username and password?” link on the Moodlerooms Login page.

2. After clicking the link above, the page below will be displayed.
3. Now they can search for their login using their Username, which will be the same as their student portal username.
4. Or, they can search by their Email Address, which most likely will be their Bulldogsmail address.
