How to Register for Classes from the Student Portal

Approved and returning students can register for courses using your Student Portal account.

Before you register, you will need to upload the required documents mentioned on the college’s registration website (www.clarendoncollege.edu) that are appropriate for the desired enrollment term, i.e. Spring, Fall, Summer 1, Summer 2, or a Mini term. Instructions for uploading documents into your Student Portal are found here, https://student.clarendoncollege.edu/custom/StudentTranscriptUpload.pdf.

Each term will have different document requirements that you will need to upload into your Document Tracking page of the Student Portal. Those documents, once uploaded, will need to be reviewed and marked “Complete” by Admissions before you will be allowed to select your courses. You can monitor the status of these documents by accessing Document Tracking from your Student Portal menu.

Once your documents have been reviewed and marked as “Complete” by Admissions, please follow the instructions below to register for your classes.

**NOTE:** Please make sure you are in the correct term before you attempt to register for any courses. If you are not using the correct term, you will not be able to enroll in your courses. Your enrollment term is selected either at the Student Portal login page or within the Student Portal: as shown in Figure 1.

7. When you add a course, it will appear under the Courses section: as shown in Figure 8. If you do not want the course, click the “Remove” button. You have 30 minutes to decide to either keep or remove the course. If you did not want the selected course and you have waited longer than 30 minutes, you will have to Drop the course. Also, notice that some courses will state it is “Already Selected”, “Full”, or “Prereq”. If a course displays a “Prereq” status, that means that your current transcript, course load, or tests scores do not meet the required prerequisite to take this course. You will not be able to select that course until the “Prereq” is met.
