

How to get the Zoom Meeting Client

Zoom Meeting Client.

1. The Zoom Meeting Client can be installed on any Windows, Android, or Apple device. To download and install the app on a PC go to the following address; <https://www.zoom.us>.
2. When the Zoom web page opens scroll to the bottom of the page.
3. Then click the Client or app needed for your device, see Image 1.

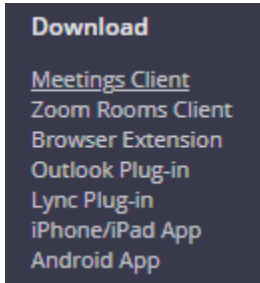

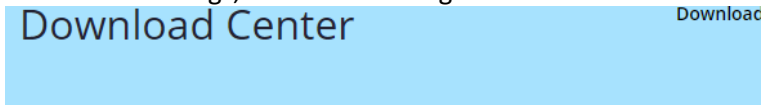

Image 1.

4. If you select Meetings Client (for Windows PC's), click on the Download link under the Zoom Client for Meetings, as shown in Image 2.

Zoom Client for Meetings

The web browser client will download automatically when you start or join your first Zoom meeting, and is also available for manual download here.
